

weBoost Installed | Home Complete

SKU: 474445 MAP: \$1,199.99

FEATURES

- First residential cell signal solution to include professional installation anywhere in U.S.
- Boosts all available networks speeds for enhanced cell signal coverage
- Improves cellular connectivity throughout an entire home
- Supports multiple cellular devices and users simultaneously
- Works on all major US carriers; Verizon, AT&T, T-Mobile, Sprint, and more

About

The **weBoost Installed | Home Complete** cell signal booster provides a best-in-class solution for weak or nonexistent indoor cellular coverage. It's engineered to increase networks speeds across all available signal bands throughout an entire home. With the addition of Band 25, it also offers enhanced support of Sprint 4G LTE. The weBoost Installed | Home Complete benefits from improved aesthetics to complement contemporary décor; as evidenced by the anodized-gray and powder-coated-black aluminum booster and its fabric-covered inside panel antenna. Upon receipt of the product, professional installation can be scheduled as soon as the next day; anywhere in the United States. After home installation, customers will experience faster data speeds, fewer dropped calls, superior streaming capability, and more. weBoost Installed | Home Complete works on all major US carriers; which includes AT&T, Verizon, Sprint, T-Mobile, US Cellular, and Straight Talk. It comes with a 2-year manufacturer's warranty along with a 30-day money-back guarantee.

	Band 13	700 MHz
	Band 5	850 MHz
	Band 4	1700/2100 MHz
	Band 25/2	1900 MHz
MAX GAIN	72 dB	
IMPEDANCE	75 Ohm	
POWER	110-240V AC, 50-60 Hz, 20 W	
CONNECTORS	F-Female	
BOOSTER DIMENSIONS	8.25 x 6 x 2.4 in	
BOOSTER WEIGHT	1.55 lbs	

How the weBoost Installed Works

- 1 **Receives signal:** The outside antenna reaches out to access the existing strong outdoor cell signal and delivers it indoors to the booster.
- 2 **Boost signal:** The booster receives the signal, amplifies it, and serves as a relay between your phone and the nearest cell tower.
- 3 **Broadcasts signal:** Your devices get a stronger signal, and calls and data are fed through the booster back to the network.
